DJ PRODUCTEUR

JeanDe Versailles

BIOGRAPHIE

The Visionary of Sound and Light
Born in France, JeanDeVersailles is a visionary DJ, producer, and multimedia artist whose creations blend emotion, technology, and elegance. Founder of JeanDeVersailles Productions and the label LuneDeVenus, he has built a unique universe where music, image, and innovation merge into immersive experiences.
A multi-instrumentalist and sound designer, JeanDeVersailles began his journey with the guitar after being inspired by Jimi Hendrix, later exploring jazz fusion, psychedelic soundscapes, and modern electronic music. Today, his productions fuse electro house, progressive, and cinematic influences — combining analog warmth with futuristic textures.
More than a producer, he is a creator of atmospheres. His performances and visual shows are designed as total sensory journeys, where beats, light, and emotion resonate together.
JeanDeVersailles has collaborated with international artists
